

**The MTA
wants you to
pay more
for less!**

Don't Pay More for Less!

The MTA is at it again. First they didn't level with the public about their finances. Now the MTA claims it has to hike the fare to as much as \$2, but that it won't cut service.

But even with a \$2 fare, the truth is the MTA is planning to slash service. It's 2003 budget calls for a \$2 fare and:

- closing 177 token/MetroCard booths; and
- not enough new service on buses, trains, and paratransit to keep up with ridership.

If you don't want a \$2 fare—and scarier stations and more crowding—then **it's time to speak up!**
